

## **SUBMISSION OF DRAWINGS**

Paragraphs 0088 – 0091 as referenced in the published application US 2005/0002863 A1 presents Table 1, 2, and 3. However, the tables were not read intact and the contents presented in paragraphs 0088 – 0091 as referenced by the printed application are not readable.

Applicant submits Figures 9, 10, and 11 to present the content contained within paragraphs 0088, 0090, and 0091. The original application as filed on July 1, 2004 is believed to contain Tables 1, 2, and 3 in the exact form presented in Figures 9, 10, and 11. Based on what Applicant believes to be the application as filed, it appears that the USPTO printer misread a percent sign (“%”) to be a “Yo,” and that some digits were omitted.

Applicant respectfully requests that the Examiner review the application as originally filed on July 1, 2004 to confirm that Figures 9, 10, and 11 conform to the application as originally filed. Applicant respectfully requests guidance on how the Examiner would prefer Applicant to amend paragraphs 0088 – 0091.
